SUMMARY

B.Tech student in Computer Science (AI ML) with a strong foundation in full-stack web development and applied machine learning. Passionate about building clean, responsive, and user-friendly applications using React, Tailwind CSS, and JavaScript. Experienced in developing real-world AI projects using Python, TensorFlow, and CNN architectures for tasks like emotion recognition and toxic comment classification. Enthusiastic problem-solver with skills in Java (OOP + DSA), UI/UX thinking, and beginner-level digital marketing. Proactive, self-driven, and always focused on delivering purposeful tech solutions.

TECHNICAL SKILLS

Languages: Python, Java, C, HTML, CSS, JavaScript

Frameworks/Tools: React, Tailwind CSS, Bootstrap, Git, Figma, TensorFlow

Databases: MySQL, SQL

Digital Marketing (Beginner): SEO, Google Analytics (basic), Content Marketing, Social Media Strategy

PROJECTS

Toxic Comment Classification

2023 – 2024

Deep Learning – Python, TensorFlow

Built a CNN-RNN model to classify toxic comments using the Jigsaw dataset.

Applied tokenization, embedding, and multi-label classification.

Amazon Clone

2024

Frontend UI – HTML, CSS, JS, Tailwind CSS

Built a responsive e-commerce interface replicating Amazon's UI and layout.

Focused on layout design, component reuse, and interactivity.

Live Demo: Amazon – Code: GitHub

Face Emotion Recognition

2025

Computer Vision – Python, TensorFlow, OpenCV

Built a real-time system that classifies facial emotions using CNNs.

Trained on FER-2013 dataset; integrated webcam detection via OpenCV.

Demo link: Watch Video Demo

EDUCATION

B V Raju Institute of Technology

Telangana, India

B.Tech in Computer Science and Engineering (AI and ML)

2022 – Present

CGPA: 7.76 (as of Semester 5)

Kakatiya Junior College

Nizamabad, Telangana

Intermediate (MPC)

2020 – 2022

Percentage: 89.3%

CERTIFICATIONS

Python 101 for Data Science – IBM (2024)

The Joy of Computing Using Python – NPTEL (2023)

Programming in Java – NPTEL (2024)

Digital Marketing Certified – HubSpot Academy (2025–2026)
